An innovative professional that is driven by a passion for cutting-edge technologies. Committed to delivering impactful solutions through creative problem-solving, always striving for excellence in every endeavour.

Education

Maynooth University → September 2022 → Present

- ⇒ Currently doing a Bachelor of Computer Science (CSSE)
- ⇒ First Year Results: 2.1

Skills

Soft Skills

- ⇒ Passionate || Critical Thinking || Committed || Time Management || Decision Making || Team Leadership

Technical Skills

- ⇒ CSS & HTML || Java || Python || Databases || Office 365 || Data Structures and Algorithms

Experience

The Amber Springs Hotel → November 2021 → Present

- ⇒ Waiter / Floor Staff
 - I have worked in coffee dock, breakfast, lunch, dinner, and various functions throughout my time here. I have gained valuable experience in customer service, order management and maintaining a smooth workflow
 - I also have skills in handling cashflow

Maynooth University → July 2022 → July 2023

- ⇒ Computer Science Summer Camp Demonstrator
 - I got to create my own session of the BBC MicroBit and showed the students at the camp what we can do with a BBC MicroBit as well as making a game with them step by step.
 - I gave a lecture on BBC Microbits and made a game with a step-by-step process for almost 100 students
 - I also helped the other demonstrators with their sessions.
 - I interacted with the kids when they were stuck as well as explained code.

Projects

Website Portfolio

- ⇒ Made a portfolio Website

BlackJack

- ⇒ Made a 2 player BlackJack Game in Java

Leadership

- ⇒ Demonstrating in Summer Camp ~ As mentioned above
- ⇒ Helping colleagues understand code when having trouble.
